IS YOUR EA PROGRAM MEETING EXPECTATIONS?

If not, consider EA Werks.

EA Werks (EAW) is a premier management consulting firm specializing in Enterprise Architecture and its component and complementary disciplines with emphasis on delivering more value and better results to our clients in strategic areas ranging from enterprise resource planning and deployment to organizational transformation.

EAW's staff are thought leaders and experienced EA practitioners with expertise spanning major frameworks and methodologies.

EAW is affiliated with the **FEAC Institute**, the nation's leading EA training and certification organization. Its faculty and staff are comprised of preeminent industry experts and its alumni include hundreds of Chief Enterprise Architects, apprentice and participating architects from both the public and private sectors.

Our services portfolio includes:

EA Assessments, Audits and IV&V Independent expert reviews and opinions on the relative maturity and effectiveness in all aspects of EA programs including:

- EA Governance and Program Management
- FEA Alignment and Compliance
- EA Change and Configuration Management
- EA Performance Measurement
- Federation of Segment Architectures
- EA Program Planning and Staffing
- Capital Planning and Portfolio Management Integration
- Collaboration and Components and Services Reuse
- Enterprise-wide business aligned IT implementation
- Other related areas (e.g., EA and security integration, etc.)

Operationalizing EA

EA Werks helps use EA to align and integrate Strategic Planning, Major Systems Requirements Analysis and SOA, Policy & Procedures, EA PMO Support, Cyber Security, Capital Planning, Program & Portfolio Management, President's Management Agenda & Balanced Scorecards, Records Management and Workforce Planning.

Technology Assistance – Assessments, Acquisition Strategy & Management

EAW helps optimize EA implementation effectiveness by providing expert assistance in critical and costly investment areas such as ERP, SOA, EAI and legacy system disposition through its years of experience and certifications in products and standards such as
